# The SCHÄFER Group

## **A family enterprise since its establishment in 1937**

An entrepreneurial spirit and a focus on the market are the driving forces behind our business divisions. Long-standing experience, outstanding product quality, the integration of innovative technologies and intensive cooperation with our business partners are what set us apart.

## **International outlook**

Over 10,000 employees, 16 production sites and a global distribution network ensure that our market presence is geared towards our customers. Being close to the market enables us to gain valuable impetus for developing new products and groundbreaking services. As a family enterprise with a distinctive company culture, the SCHÄFER Group sets standards.

## The SCHÄFER WERKE Group – expertise in steel processing

### EMW Steel Service Centre

- Coils
- Slit strips
- Cut-to-size blanks
- Circular blanks

### SCHÄFER Perforated Metal

- Coil-to-coil perforation
- Perforated sheets to customer specifications
- Perforated sheets from stock
- Machining service

### SCHÄFER Container Systems KEG

- Container systems for the beverage industry
- Self-sufficient dispensing systems

### SCHÄFER Container Systems IBC

- Standard and special containers made from stainless steel
- Hazardous goods containers

### SCHÄFER IT-Systems

- IT rack solutions for server and network cabinets
- Data centre and water-cooled server cabinet solutions

### SCHÄFER Office and Workshop Equipment

- Office equipment
- Workshop equipment

## A passion for steel service

Our guiding principle is to fulfil the needs and demands of our customers as quickly as possible. We combine our function as an important link between steel producers and steel processors with a high degree of customer-oriented service.

As an independent company, we operate worldwide and offer benefits for our customers in terms of grade variety, storage and just-in-time deliveries.

## Product range of exceptional quality

The production and storage area of 85,000 m<sup>2</sup> stocks over over 300,000 tonnes of thin sheet metal in almost all current market grades, mainly hot-dip and electrolytically galvanised, as well as warm- and cold-rolled. Our specialities include premium automotive products, high-tensile steels and enamelled items.

## High-efficiency production machines

State-of-the-art slitting lines, longitudinal and lateral cut-to-length lines and cutting centres guarantee quality and flexibility. Our delivery range geared towards the market supplemented by a high level of customer-oriented service, ranging from expert advice and quality control right up to logistics.

## Areas of expertise & solutions

### ■ Products

- Coils, slit strip, blanks, circular blanks
- Perforated metal sheets

### ■ Grades

- Cold-rolled, hot-rolled, hot-dip galvanised, electrolytically galvanised
- Standard deep-drawn, micro-alloyed, high-strength and ultra-high-strength grades
- Perforated sheets (various steel grades, plus non-ferrous metals such as aluminium, steel, stainless steel, etc.)

### ■ “Green Steel”

- Steel manufactured with reduced CO<sub>2</sub> emissions

### ■ Material dimensions

- Coils/slit strip: Thicknesses of 0.25–16 mm, widths up to 18–1,850 mm
- Blanks: Thicknesses of 0.4–3.0 mm, widths up to 1,850 mm, lengths up to 4,500 mm

## Target customers

### ■ Automotive industry

Manufacturers and suppliers

### ■ Commercial vehicle industry

Manufacturers and suppliers

### ■ Industry

- Construction industry
- Electrical industry
- Mechanical engineering
- Profile manufacturers
- Pipe manufacturers
- Cabinet and housing manufacturers
- Solar industry
- White goods

### ■ Coil trading

- Direct processor

### ■ Split to order

- Aluminium and stainless steel

## Benefits

### ■ Worldwide independent procurement

### ■ More than 300,000 t of input material in stock

### ■ Production and storage area of 85.000 m<sup>2</sup>

### ■ Production volume of more than 1,300,000 t/year

### ■ State-of-the-art production machines

- 11 slitting lines
- 4 cut-to-length lines
- 2 AMADA cutting centres
- 1 roll stand

### ■ Quality guarantee and process reliability

### ■ Customer portal at [www.yoursteel.de](http://www.yoursteel.de)

### ■ Digital marketplace

### ■ Three production locations

- Neunkirchen (NRW)
- Iserlohn / OKS Otto Knauf (NRW)
- Treuen (Saxony)

## Perforated sheets made to measure – from standard to individual

We are your expert partners when it comes to manufacturing perforated metal sheets. In addition to supplying the standard materials of steel, stainless steel and aluminium, we also support you with our expertise. We also offer you materials such as copper, zinc, brass and even plastic. From more than 400 perforation patterns, we produce customised perforation patterns according to your requirements and also offer machined solutions and small assemblies.

In our online shop at [www.lochblech-shop.de](http://www.lochblech-shop.de), you can order perforated sheets straight from stock. A great selection of standard in-stock formats and perforation patterns are permanently available.

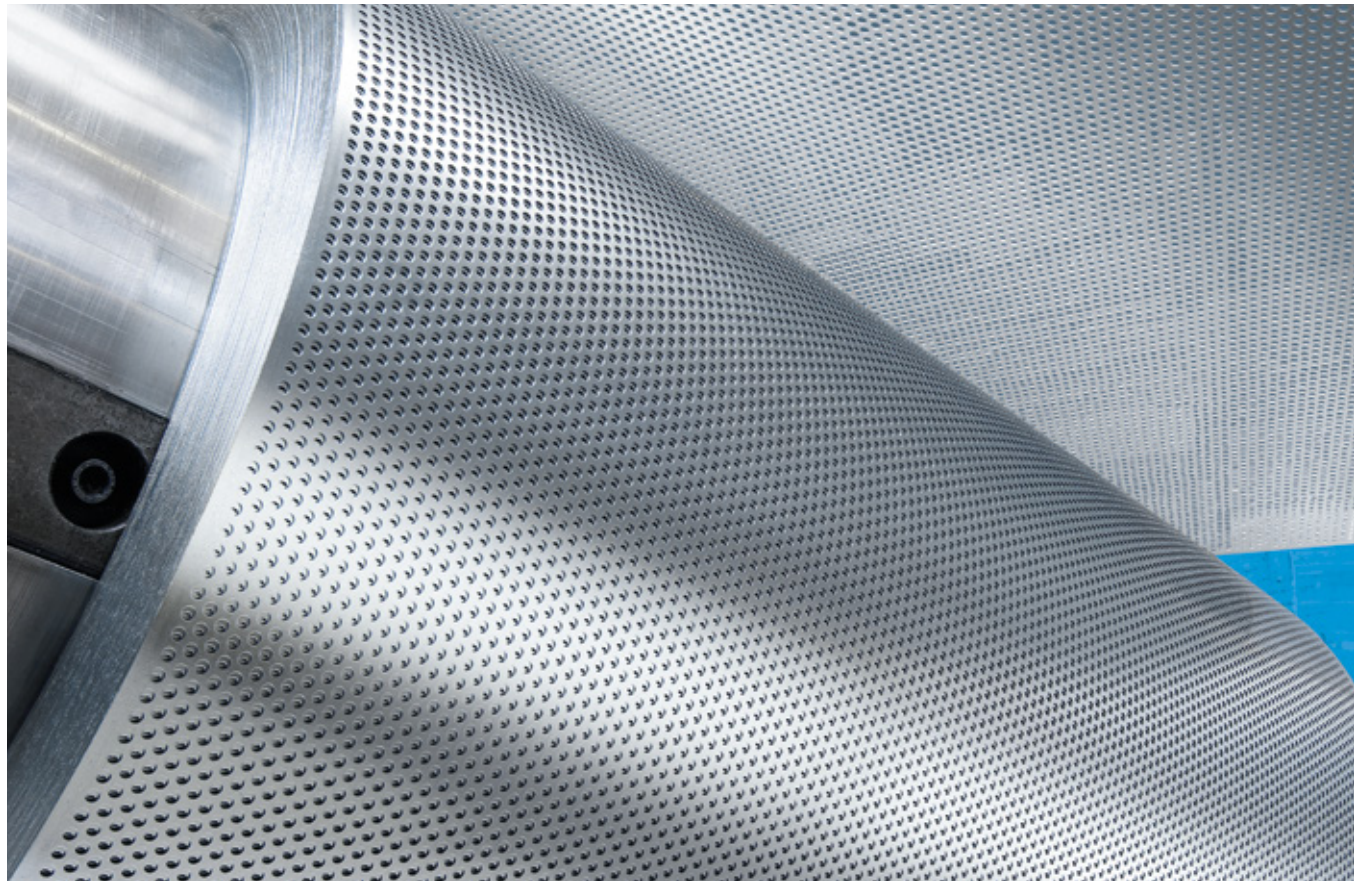

### Machining

Whether round perforation, square perforation, hexagonal perforation, slotted perforation or individual special perforation – we manufacture your perforated sheet to measure. Whether you require perforation, bending, notching or many other machining processes, put your critical or sensitive work stages into our capable hands

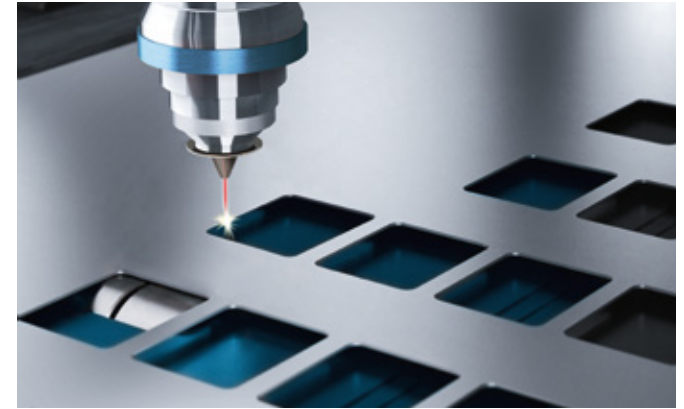

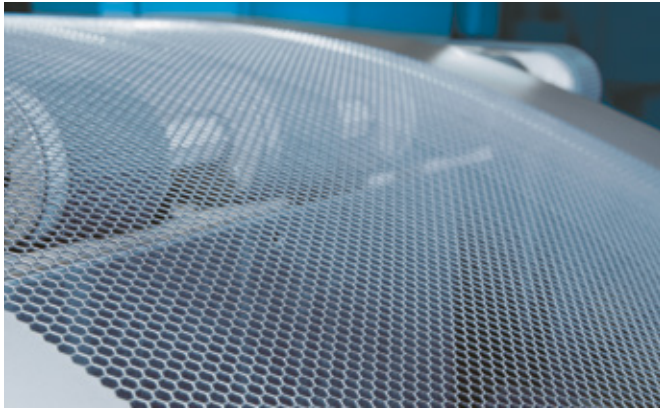

### Synergistic effects mean reliable delivery

Our direct links to the EMW Steel Service Centre create synergistic effects, from which our customers reap the benefits. Orders are processed and delivered in the shortest possible time.

[www.schaefer-lochbleche.de](http://www.schaefer-lochbleche.de)

## Areas of expertise & solutions

### Perforation patterns

More than 400 different hole pattern;  
Round perforation, square perforation,  
hexagonal perforation, slot perforation

### Materials

Sheet steel, stainless steel, aluminium

### Machining service

- Bending
- Punching
- Laser cutting
- Deburring
- Straightening
- Degreasing
- Notching
- Coating
- Anodising

## Target customers

### Construction industry

Facade construction, Noise barriers, Balcony balustrades,  
Interior design, Ceiling panels

### Mobile applications

Commercial vehicles, construction vehicles,  
agricultural machinery, automotive

### Industry and mechanical engineering

Metal construction, mechanical engineering,  
filter technology, storage and conveying equipment,  
air conditioning and heating technology, food industry,  
furniture systems

### Safety technology

Safety fences

### New technologies

Battery boxes, e-fuels, hydrogen production, EMC

## Benefits

- **Top-quality perforated sheet solutions available at short notice**
- **Standard perforation patterns and customised, individual solutions from a single source**
- **In-house machining service**
- **Specialist customer advice**
- **Expert support of your project**

## Reusable KEGs for the beverage industry

Customers all over the world place their trust in SCHÄFER – and with good reason. There are already almost 30 million SCHÄFER KEGs in use across the globe, which is the best possible proof of quality and expertise in reusable keg technology. The high-grade base material for all SCHÄFER reusable KEGs is stainless steel. Fully automated deep drawing and finishing on state-of-the-art equipment also guarantee that we can manufacture KEGs of outstanding quality.

### Innovative and wide range of KEGs

For four decades, SCHÄFER has been setting new standards with innovative ideas and products. With developments in line with market conditions and customer requirements, we have perfected our KEG technology and established ourselves worldwide as a universal supplier.

### Areas of expertise & solutions

- **PLUS KEG/junior PLUS KEG**  
Partly or fully coated PU KEGs
- **ECO KEG**  
Stainless steel KEGs with PP top and bottom rings
- **SUDEX stainless steel KEG**  
100 % stainless steel KEGs
- **SOFT DRINK KEG**  
Partly or fully coated PU KEGs
- **draft2go**  
Self-sufficient and sustainable dispensing system
- **KEG service**

### Target customers

- **Breweries**
- **Beverage bottlers**
- **Non-alcoholic beverage producers**
- **Wine makers**
- **Hospitality**
- **Catering**

### Benefits

- **Extensive range of KEGs**
- **Great variety of branding possibilities**
- **State-of-the-art production at two locations (D/CZ)**
- **Efficient order processing**
- **Decades of experience in this sector**
- **Worldwide sales network**
- **Sustainable reusable KEGs**
- **Long service life**
- **Member of**
  - Steel KEG Association
  - METAL recycles forever

## IBCs and customised containers for any application

As an IBC manufacturer, SCHÄFER Container Systems can provide an extensive range of stainless steel containers with capacities from 500 to 3.000 litres. We supply almost all sectors, meeting the highest demands for certification, production, transport and storage: From proven standard containers for bulk materials, liquids and pastes, to aseptic containers right up to bespoke special containers for sensitive or hazardous substances.

### Full-range supplier

SCHÄFER Container Systems is a full-range supplier of IBCs and ion exchange units, in various sizes. This allows many companies in the food and pharmaceutical industry to meet their entire demand for container solutions either largely or completely from a single source.

### Sustainable reusable solutions

Stainless steel IBCs have many ecological advantages, such as decades of multiple use and the possibility of complete recycling at the end of their life cycle. The efficient use of resources is important to us. These container solutions therefore make a sustainable contribution to the circular economy.

[www.schaefer-container-systems.com](http://www.schaefer-container-systems.com)

### Areas of expertise & solutions

- **Stainless steel IBCs**
  - BTA tank containers
  - BSIF/BSI silo containers
  - RCN round containers
  - Lightweight SCHÄFER Cubes + Skid
- **Heatable containers for liquids**
- **Aseptic food containers**
- **Stainless steel special containers to customer specifications**
- **Hazardous goods containers**
- **Ion exchange units**

### Sectors/industries

- **Chemicals**
- **Paints and lacquers**
- **Food**
- **Oil and petrochemicals**
- **Waste disposal**
- **Pharmaceuticals**
- **Beverages**
- **Hazardous goods**
- **Water treatment**

### Benefits

- **Extensive product range**
- **Certified in accordance with**
  - DIN EN ISO 9001:2015
  - DIN EN ISO 50001:2018
  - AD 2000 HP 0
  - DIN EN ISO 3834-3 and 2014/68/EU
- **Tailor-made solutions to customer specifications**
- **Specialist container construction company located in the Czech Republic**
- **Experience in international projects**
- **Constant development of the product range**

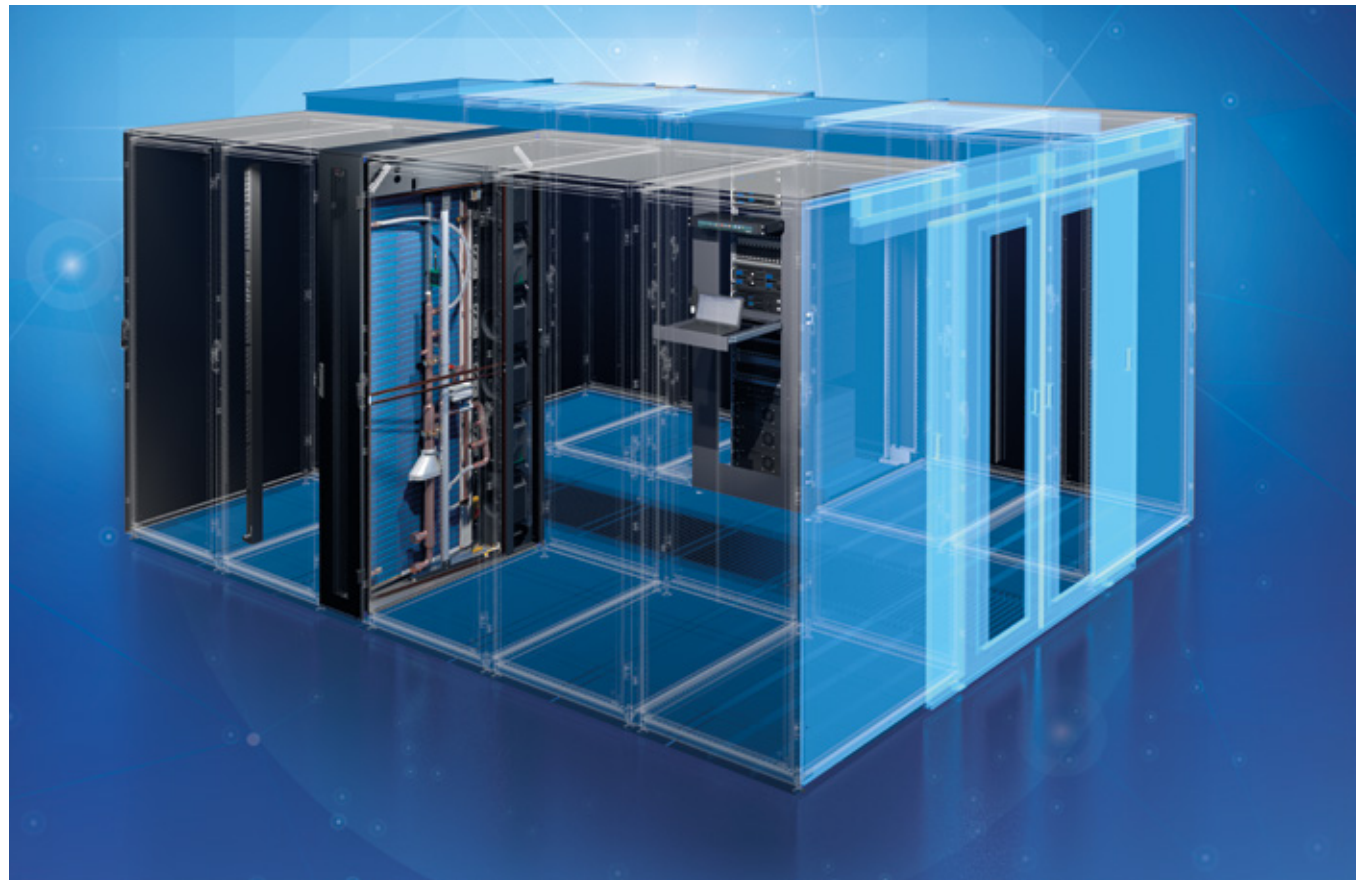

## The specialists for IT infrastructure

SCHÄFER IT-Systems develops, designs and produces both standardised and customised data centre and water-cooled server rack solutions, based on our company's extensive and future-orientated expertise. We offer measurable cost and energy savings. When it comes to the "data centre of the future", we are your expert and reliable partner. Together with our own specialists and selected partner enterprises, we supply impressive, made-to-measure solutions with our brand iQdata.

### Universal technology for protection and flexibility

What's more, SCHÄFER also supplies a wide variety of rack solutions for network applications. A comprehensive, practical range of components and accessories rounds off our product portfolio.

Our IT racks and concepts make an active contribution to energy efficiency and have a positive influence on all important infrastructure components in the entire data centre.

### Areas of expertise & solutions

- **iQdata**
  - Rack
  - Cooling
  - Power
  - Monitoring
  - Security
  - Service
- **Edge computing**
  - One- to four-cabinet solutions
  - Containers and modular solutions
- **Network technology**
  - Network and server cabinets
  - Wall-mounted enclosures
  - Cable management
  - System accessories

### Target customers

- Data centre operators
- Data centre installers
- Specialist IT retailers
- Electrical wholesalers
- Planners and architects

### Benefits

- Expert sales team with years of project experience
- High availability
- Individual solutions tailored to customer requirements
- Short response times
- In-house prototyping team
- In-house testing room

## Efficiency and economy in the working environment

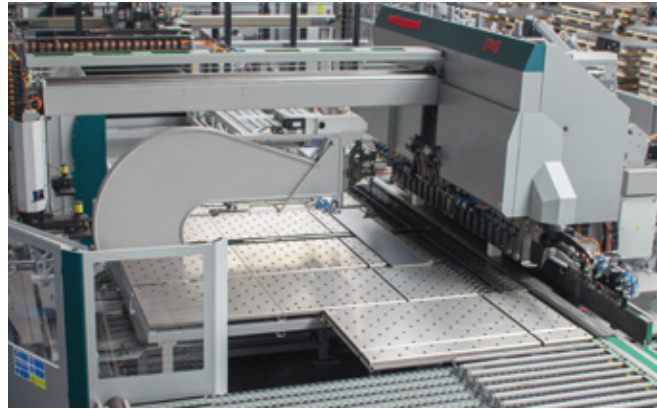

Functional versatility brings considerable benefits. With our combinable and flexible system elements, almost any planned interior design concept can be realised. SCHÄFER's interior systems create space for more productivity and individual solutions. From material cabinets to small-parts cabinets, from drawer units to workshop cabinets, from changing room lockers to workbenches.

Product systems based on the modular principle and series-based systems guarantee optimal interior design solutions. Efficient and variable. Functional and practical.

Our product portfolio is rounded off by a comprehensive and practical range of components and accessories.

## Areas of expertise & solutions

### ■ Interior systems

- Lockers
- Wardrobes

### ■ Workshop equipment

- Workbenches
- Work tables

Metal cabinets

- Material cabinets
- Functional cabinets
- Drawer cabinets

### ■ Office furniture

- Storage solutions
- Desk systems
- Office containers

### ■ OEM solutions

## Target customers

- Commerce
- Trade
- Industry

- Individual requirements or solutions for entire buildings
- Entry-level price segment or industry standard

## Benefits

- **Top quality:** State-of-the-art production site in Germany
- **Flexibility:** Cabinet and enclosure solutions tailored to customer requirements
- **Full-range supplier:** Complete product range from a single source
- **Availability:** Fast delivery of core range products

### In cooperation with SCHÄFER SHOP

Available through:

- Print media
- Online catalogues
- Field service
- Project departments
- Personal on-site support

## Exciting prospects with a strong employer

Preserving the values and goals of the founder, continuing to strive for his aspiration of entrepreneurial autonomy and remaining independent through our own financial initiative – these are the foundations on which management can implement a forward-looking and sustainable corporate strategy: “As the family that owns the group, we must always support all of its companies and make reliable, future-oriented development possible through our commitment. We want the values we have developed decisively influence the group as a whole. Based on these values, we have defined guidelines for the management of all the companies in the group.”

The core statements are:

- Thinking, planning and acting is geared towards the long term
- Searching for, promoting and implementing market-oriented innovations
- “Growth”, but not at any price
- Keeping the risks we take within reasonable limits
- Reinforcing our capital strength through our own financial initiative
- Taking on social responsibility wherever possible
- Supporting sustainability in our use of resources
